#### Breakdown of consultant establishment

The data contained in the tables below is extracted from DIME (Doctors Integrated Management Esystem) as at 04 November 2020. DIME is dependent on clinical sites inputting details on their consultant workforce and therefore there may be variances and gaps in the data supplied to that held within clinical sites.

A vacant post is either:

- 1. a consultant post that the hospital has verified on DIME as currently vacant following the departure of the previous postholder; or
- 2. an additional consultant post that automatically defaults to vacant following Consultant Applications Advisory Committee (CAAC) approval. Naturally there is a time period between first approval and recruitment.

Although the post is currently vacant, recruitment may be underway and in some cases appointments may have already been made with a prospective start date.

An unknown post refers to a post where the incumbent has vacated the post (i.e. their end date in post has passed) and the site has not yet confirmed whether the post remains filled or is vacant.
